PROVIDED
NATIONALLY**

WHERE CUSTOM IS CUSTOMARY

TACG CANOPY; PENDERGRASS, GA

Profab Custom Fabricators is located just outside Spartanburg, South Carolina.

This places us in the heart of our southeastern market and will provide room for further expansion which is already in the planning stages.

Profab's Standing-seam roof and trim curving capabilities along with custom fabricated Architectural Vision Screen and European Rain-screen panel systems have been the core of our success.

Our philosophy is dedication to customer service backed by quality engineering and manufacturing, to provide the very best in custom sheet metal fabrication. Our custom built Panel Curver is capable of curving 12 inch to 18 inch wide, 24 and 22 gauge mechanically seamed and snap-type roof panel. Also, your design can be modified by our curving operator on-site to suit any potential site issues.

Please visit our website: www.profab.biz for more information on capabilities. Please take a moment to review the photos. The best way to ensure pricing is to submit a request for quotation. You may contact us with any questions toll free: 866.590.0008
